Paul Soles Opened Haliburton Exhibition Of Arts and Crafts

Paul Soles, the popular host of C.B.C.'s "Take Thirty" afternoon T.V. program officially opened the Haliburton Guild of Fine Arts Summer Exhibition and Sale on Wednesday, July 8th., at 8:00 p.m. This versatile performer of both stage and screen was a big hit with the large gathering on hand, at this event.

Everyone is invited to attend this Sale and Exhibition which runs through to July 11th. It is being staged at the Haliburton Highlands Secondary School from 10 a.m. until 10 p.m. each day.

Activity seems to be the keynote for the Haliburton Guild of Fine Arts Annual Summer

Exhibition. In the cool expanse of the Haliburton High School Auditorium busy hands have set in motion the spin of the potters wheel. Shuttles fly through colorful threads to create a piece of weaving. Chips flip with careless abandon around the feet of the woodcarver. All this adds another dimension, the delights that await the visitor to the exhibit. One demonstration in particular promises fascination for the spectator. This is the one which will be given by Mr. Guy Brender a Brandis. Mr. Brandis produces moving and sensitive woodcuts that are extremely delicate pieces of artistry. He will be on hand all day Saturday to show how he executes his craft.

LETTERS TO THE EDITOR

Dear Mr. Greir;

We are writing this letter as a follow up to your Editorial on 'Safe Boating Week', and as a plea, through your paper to possibly averting a disaster at the mouth of the Gull River.

Actually, in our opinion, 'Safe Boating Week' is a farce! Why not safe boating all summer long! We daresay that some of the people we observe operating boats don't know such a week exists.

We have been residents at the mouth of the Gull river for seventeen summers and our children have grown up safely here but if something isn't done to enforce the boating laws, one or more children or adults, swimming in the river is going to be seriously hurt or killed!

We have approached the Ont. Provincial Police and they agree something should be done but can only go as far as warning individual boaters and fine them for subsequent offenses. We wrote to the township and received a reply that they, at least in this township, could not enforce the law.

We would personally report such 'boaters', but they travel both up and down the river at such speeds that it is impossible to see the registration number on their craft.

May we say not all these operators of boats are children or even teenagers, but grown men!

If a person finds pleasure in swimming that is their right. Boating is also a pleasure to be enjoyed, but surely when doing so others could be considered and let them enjoy their fun, and holiday.

With the ever increasing number of boats plying the lake and river, this is becoming more serious each year.

May we hope that enough persons read this letter and tell others, in order that such obvious disaster be avoided and everyone using the lake and river return home after a safe holiday.

Thanking You
Harry and Mildred Ludlow

ACE SHOT AT BLAIRHAMPTON GOLF CLUB

The par 3, number six hole, at Blairhampton Golf Club, was aced for the first time, last Saturday, July 4th.

This was the first "Hole-in-One" for the happy shot-maker, Mr. Peter Stoner, of Oshawa, Ontario, who was staying at Gold Rock Lodge, near Cobconk.

Pete used a number five iron for his tee shot on this 164 yard hole, and the ball landed on the green, and rolled up and into the cup. His playing partner, Mr. Ken Quinn, also from Oshawa, witnessed his score.

THE KAWARTHA SUMMER THEATRE TO OPEN MONDAY, JULY 13TH., IN HALIBURTON HIGH SCHOOL

Actors from Labrador City and Winnipeg, joined their counterparts from Toronto, Ottawa and Montreal, as the fifth Kawartha Summer Theatre went into rehearsal at the Academy Theatre in Lindsay this morning. Joan Pantan, one of last year's company, returned for a second season from Winnipeg, and Graham White, a member of the group representing the Atlantic Provinces in the Dominion Drama Festival finals last May, has also

joined the company.

Returning also from last year are Wendy Thatcher, Hamish Robertson and Alan McRae. John Hamelin and Luc-Guy Robitaille are from last winter's Touring Players Foundation group. Norman Dyson of Vancouver, B.C. is the stage manager and Walter Korinowsky of St. Catharines is the assistant.

First play of the season is the very funny 'Enter Laughing' written by Joseph Stein and taken from the book by Carl Reiner. Director is Dennis Sweeting, producer of the Summer Theatre, designer is Howard Berry.

Three veterans of the Lindsay Little Theatre play supporting roles, Moe Wileman, Ed Waterhouse and Don Blakely, all have performed with the summer professional company in the past seasons.

The company opens in Haliburton High School on Monday July 13th and then plays Tuesday, Wednesday, Thursday and Saturday at the Academy in Lindsay.

**ENGINEERING FIRM
OPEN BRANCH OFFICE**
Official announcement is made in this edition by Totten, Sims, Hubicki and Associates Limited of the Branch Office in Muskoka.

A member of this well known firm of engineering consultants, which provides a full range of engineering and planning services to municipalities and private companies, explained the reason for opening a Muskoka Branch Office, by saying 'As the Muskoka-Haliburton Areas enter on a new and promising period of development, we are convinced that there is a growing need for consulting engineering services to assist in meeting the area's development goals'.

He said further 'We are pleased to be serving a number of municipalities in Muskoka-Haliburton and with our new Branch Office, we are confident that our location will enable us to provide more efficient, economical and personal service to the entire area'.

MEDLEYS HAVE BIG ATTRACTION

On Tuesday, July 14th and Saturday July 25th, a group of musicians called 'EVERYDAY PEOPLE' will be performing at Medley's Dance Hall in Carnarvon. They will appear every other Tuesday thereafter.

EVERDAY PEOPLE are six musicians who live and work harmoniously in the country just north east of Toronto. They have found a way of life that allows them to create the kind of happy music with meaningful lyrics they hope will affect all people, everywhere.

Five fellows and a girl who were all working in different musical tastes got together with a common bond of happiness, love and above all peace. Their music is original, driving, happy rock and you can feel the overtones of country funk in their vocal harmonies. They are currently awaiting release of their first 45, with another already in the can. The group is now working on material for their first album to be ready sometime this summer.

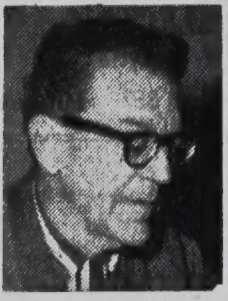

CANNING LAKE

2 bedroom cottage plus living room, kitchen and small porch, sauna bath at lakeshore. Lot 100' x 200'. Price \$8,500.00

HALL'S LAKE

Located on a large lot 150' x 500' which runs back from the lake to Highway 35, is this 2 bedroom cottage freshly lined and tiled, kitchen, bathroom, living room with fireplace and veranda. Boathouse and outbuilding. Price \$16,500.

FREE BROCHURE ON REQUEST

HERE AND THERE

with Fenwick Finch

(Earl T. Monahan — Pinch Hitting for Fenwick)

It is great to be back once more in God's Country and to renew acquaintance with such local stalwarts as Al McMullen at Hospitality Inn, Alan Greir, publisher of Minden Progress, and Lorne Coburn at the corner drug store.

Most heartening of all was to see Norm Maidens up and about and to read more his pithy comments as Fenwick Finch.

Recent newcomers to the area should be good for the local scene as they are bound to come up with fresh ideas.

Ron and Betty Parrott, new owners of Deer Lodge where I am staying along with granddaughter Barbara Basch, 12, of Fairport N.Y., have big plans for the future, and will be ably abetted by sons Steve, 18, and Allen, 12.

Norm and Mary Maidens escorted me to dinner the other night at South Lake Lodge, where Robert L. Freeman has recently taken over. Bob and his wife, with nine children should have no trouble staffing the old landmark.

Speaking of newcomers, the Parrotts have enticed the well known three piece band, "The Impressions" away from the Muskokas to play at Deer Lodge on Thursday and Saturday nights.

This wholesome looking group of fine young musicians play a variety of old and current hits with some unique arrangements that restores your faith in contemporary bands.

All college men, brothers Gabriel and Tom Etele play piano and drums, and Claude E. Bagley rounds out the trio as bass player. Gabe and Claude do some nice work on the vocals. The boys, all from Toronto, finance their college tuition during the year from the proceeds of their engagements.

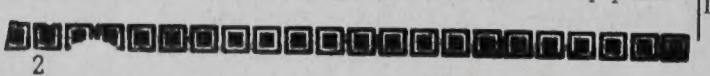

One of the treats in staying at area lodges is the making of new friends who often turn out to be from far away places. Barb and I were fortunate in having as table partners all week in the Dining Hall, Mrs. Maureen McKinlay of Scarborough, formerly of Sydney, Australia, and her lovely blond daughter Michelle, born 16 years ago in the exotic Fiji Islands.

This has been a rainy week for those of us on Holidays, but the Haliburton Highlands affords such a variety of interests that wet weather fails to dampen the spirits. I never tire of revisiting Buttermilk Falls, or stopping in at Robinson's unusual General Store at Dorset, to say nothing of catching a grand sweep of the countryside up atop Skyline Park at Haliburton, or the Lookout at Minden.

I have recently returned from Winnipeg, Manitoba, crossing most of Ontario, and found nothing to match the beauty of Scenic Highway No. 35 from Minden to Dorset in the 1500 mile journey.

Even the spectacular route from Wawa to Sault Ste. Marie along Lake Superior would have to rank second.

You folks have a great country up here, so keep shouting from the housetops about it. I'll do my part.

VANDALISM PLAGUES HALIBURTON

Residents of Haliburton village are getting weary of increasing vandalism, according to the Haliburton County Echo, and of "young smart alecs racing their cars up and down the main street", and a petition is being circulated asking that some semblance of law and order be restored to the village.

The petition notes that the area has a good police force but that many of those apprehended get off with a suspended sentence.

Copies of the petition are to be sent to Attorney-General Wishart R. Glen Hodgson, MPP, and provincial Judge Ian Munro.

Lindsay residents are also perturbed over increasing acts of vandalism in recent months. Many expensive plastic signs in town have been shattered by rocks thrown through them, including the illuminated emergency sign that directs people to the Ross Memorial Hospital.

Vandals have also broken windows throughout town, have attempted to push over the new contemporary - designed waste baskets that stand on posts in the sidewalk on the main street have damaged a large number of the street direction signs at intersections and have snapped off recently planted small trees on the main street and on the town's parks.

LETTER TO THE EDITOR

Dear Fenwick,

I've been waiting to hear that your back to your old self once again. (Whatever that is?) but I am glad to hear that your fully recovered.

I'm also glad the gout you had isn't catching.

After reading the Front Page Editorial it makes me wonder if you can ever really get away from the 'Rat Race' I'll bet Mr. Craig is wondering the same thing.

We know several people in town and they agree he did a terrific job and will be very hard to replace. I realize there is two sides to this, but as an interested spectator it really makes you wonder if all the joys of living in a smaller town (and breathing that good clean fresh air, relatively free of pollution) is worth it.

The town is really looking up in other ways, the garbage is not knee deep any more, only ANKLE deep now.

I just wish the Red and White Store would expand, you have to be a sardine to shop in there but I try, I try.

Well, Fenwick, with all it's faults, I still think Minden is the greatest town in the Highlands and if I do have any beefs I hope no one will take them too seriously. (as if anyone ever would).

Best wishes to you and Ye Deare Olde Editor.

SUBDIVISION OF LAND

All persons considering the sale or purchase of land in Ontario are urged to acquaint themselves with The Planning Amendment Act 1970 which became effective June 27th.

A major feature of the Amendment extends subdivision control and part-lot control over all lands in Ontario.

This measure is designed to encourage the orderly use of lands and to help our communities meet land-use requirements for education, housing, pollution and other purposes.

DAMAGE \$500 AS TWO TRUCKS COLLIDE

Damage totalled \$550 when a dump truck driven by John Wallace Thurston, 38, of Dunsford, and a pickup truck driven by George Andrew Westlake, 20, of Toronto, were in collision on county road 27, six miles south of Bobcaygeon, at 3:10 p.m. Thursday. Const. Charles Shepherd investigated.

A passenger in a car that went off the north Bobcaygeon road, three miles north of Minden Wednesday was taken to Ross Memorial Hospital for treatment for lacerations. Dave Howard Brokenshire was reported in satisfactory condition. The driver of the car was Douglas Packard, 25, of Scarborough. Damage was estimated at \$350. Const. William Devereaux of Minden Detachment OPP investigated.

STORING STRAWBERRIES

Handle fresh strawberries with care. To store, empty the berries carefully from the box, pick them over, removing any that are soft or decayed. Place the sorted berries in a covered bowl in the refrigerator and use as soon as possible. Just before serving, wash the berries gently in a bowl of cold water. Do not soak in the water since the berries can become waterlogged. Hull the berries after washing, say home economists, and drain thoroughly in a colander or on several thicknesses of paper towelling.

EAGLE LAKE VILLAGE

2 bedroom, partly insulated cottage with livingroom, kitchen and dining area combined, with 3 pc. bath. Included in price is a one bedroom guest cabin situated on a well treed lot with a good well. Close to public beach and ski tow. Priced at \$10,500.00 with \$3,000.00 down and balance at 9%.

DOING A BIG JOB

This week we take our hats off to a young, and relatively new OPP Constable here in Minden, Larry Scott. Since coming to town a year ago, Larry has become quite a community man.

His first endeavor to get involved in Minden was to join the Rotary Club here. His latest efforts have been with the Minor League Ball, which is flourishing under his guidance.

With the young fellows in minor ball, Larry has been a tower of strength, organizing the best minor ball system this town has had, since Mark Vasey was at the helm a few years back. Now with Larry organizing the strategy the minor ball has come back reaching new heights.

Some one hundred kids are now active in ball here in Minden, playing on eight teams. These include two Novice, four Pee Wee and two bantam, our "Mr. Minor Ball" has also organized an all star team, which has played in three different outings, the latest being in a tournament in Hastings.

Besides organizing the teams, Larry has worked feverishly on raising money for sweaters, crests, balls, bats, bags and masks. He was granted some money from Council to make a few purchases, but has been planning other ways and means of raising more money to fully equip the teams. Two of these projects are the very successful "Tag Day" held last weekend and the up-and-coming dance on Rotary Carnival Week, Friday July 31st. All proceeds from this venture will end up in the Minor ball kitty.

The Tag Day held Friday and Saturday of last week was a real success, with \$175.50 raised. A vote of thanks must also go to those ardent young ball players who sold the tags, namely: Ted Brandon, Paul McKenzie, Peter McKenzie, John Palmer, Jim Hatkoski, Mark Greir, Kelly Greir, Kirk Coneybeare, Shane McKelvey, Shawn Cook, Tom Palmer, Lockie Crawford, Dwane Simms, Barry Dunn, Jim Dunn, Jerry Campbell, Perry Kimble, Chris Miles, Brian Gray. I hope I haven't missed anyone — these kids worked hard and deserve a pat on the back, for their efforts.

Minden is fortunate in having a keenly interested citizen in Larry Scott — very little grass will grow under his feet, for he is constantly on the move organizing, planning and working for the various activities, which he is involved in.

While he talks about the ball, periodically he brings up the subject of hockey next winter — I can see right now that the Minor Hockey Association has landed a good coach and a hard working member for the executive. It is a pleasure to work with someone who is so keenly interested in the youngsters of the community, who is a doer — not just a talker. While most of us are trying to get someone else to do our job, Larry has his done. He is a man of action — just what Minden needs to keep the ball rolling.

WHAT'S NEW AT MINDEN LIBRARY

Well good news at last, tenders are out for a new furnace and not before it is really needed; seemed it never went out except in zero weather, last winter.

Then some plants have been put in the flower bed, and are flowering well; please don't step on them when using the book drop.

Several times a year we join in an rotating book exchange ours came from Dorset and we send ours to Snowdon. This time we really received some different ones.

Our circulation keeps up to near of over the thousand a month but summer visitors swell this by a goodly number.

Hours are the same all year round; week days 3-5 also Tuesday, Thursday and Friday evenings 7.30-8.30. There is no charge to cottage owners or permanent residents, so take advantage of "YOUR" library

Some new books--The Young Walt Disney, tells how he became the successful creator of Mickey Mouse and other famous characters. A Welsh Story, a biography of Joyce (James) Varney with a story of humour and sadness making fine reading. Curse of Viking Grave, Farley Mowat has created another fine tale in his usual interesting way. The Croaking Raven, an English mystery in a haunted castle, keeps you reading to the last page.

MALICIOUS DAMAGE AT NORLAND SCHOOL

Coboconk OPP are investigating malicious damage at the Norland public school where five windows have been broken.

Police are also investigating the theft of Canadian and Ontario flags from the Department of Highways depot at Coboconk. The flags were valued at \$40

Damage was estimated at \$250 in a one-car accident on Highway 121 two miles north of Fene-lon Falls Thursday evening. The car was driven by Thomas Collins, 48, of Hamilton.

Const. Don MacKay is investigating.

BUSINESS OPPORTUNITIES

Earn money in spare time — Men or women to re-stock and collect money from new type high quality coin-operated dispensers in your area. No selling. To qualify, must have car, references, \$750 to \$3,000. cash. Seven to twelve hours weekly can net excellent income. More full time. We invest with you — and establish your route. For personal interview write: B. V. Distributors Limited, 2480 Tecumseh Road East, Windsor 19, Ontario. Include phone number.

Minden Maidens Crush Fenelon Falls

Last Monday evening our local gals downed Fenelon Falls women 33-4. This win marked Mindens first victory of the season dropping the first 4 games to Halburton and Fenelon Falls. The girls played a superb game with lots of base stealing and power hitting.

The Maidens looked smart in their new blue uniforms with

gold trim, donated by Mindens own I.G.A. store owned by the Dollo Bros.

Our thanks go to Joe and Pete for a much appreciated donation. The girls seem to think the uniforms have improved their game.

The girls have made an all out effort to improve their game which meant many bro-

ken finger nails bruised skins and twisted ankles.

The Maidens are hoping for a little fan support as they feel this boosts their morals and gives them confidence. So watch for posters around town. Next week Minden will be at home Tuesday night so lets get out and support the girls.

MINDEN MINOR BALL

On Saturday, July 4 the Minden PeeWee AllStars travelled to Hastings to participate in the Legion PeeWee Tournament. In the first game the Minden team took on the heavily favourite Hastings team and came out on the short end of a 13 to 1 score.

The coaches were very satisfied with the showing of the Minden team, as the other teams have been playing for approximately three years while the Minden team has been playing for three weeks.

This week the PeeWees will be playing a double header to make up for those not playing last week. We expect to see lots of parents out to these games.

Special attention to the cottagers. Any child will be welcome to play in the minor ball league. The ages of 6 7 8 9 and 10 11 12 play ball Saturday mornings at 8:30 am while the 13 14 15 age group play ball on Monday evenings at 6:15. To register just show up at the ball park and contact one of the coaches that will be present.

AROUND THE BASES

with the "BEAGLE"

The Merchants had a quick look at second place after two big wins last week 7 - 3 over West Guilford and 7 - 1 over the Irondale Flyers, however the West Guilford Redmen bounced back into second with a big win over the Haliburton Huskies 9 to 4 in Guilford on Sunday.

Merchants 7 Redmen 3

On a very damp and slippery field, Wednesday last the Merchants took their second in a row from the Redmen. The locals came through with 3 runs in the third and four more in the fifth to take the win over the visitors who were held off the score board until the sixth. Big bats for the locals were Newell and Snell, who also went all the way on the mound. T. Salvator was behind the plate.

Minden 7 Flyers 1

The Merchants swamped the skidding Flyers in a very one-sided game in Irondale last Thursday. Even though the Flyers were backed by a large home town cheering section (Bark Lake Camp) the Flyers couldn't stop the charging Merchants who were looking at second place. Jim Garbutt went the distance for the locals while Phil Watson took the loss. Garbutt and Morrison were the big guns at the plate.

MERCURY FISHING OUTBOARDS

SPACE AGE ENGINES

We're not kidding! A Merc fishing engine is SO superior in design and ahead of the field, that it belongs to the Space Age.

Thunderbolt Ignition with Maker Points — Instant starts with up to 40,000 volts of power. Fastest, hottest spark in the industry.

Perma-Gap Spark Plugs — new super-tough center-electrode alloy resists spark erosion. Under normal operating conditions, Perma-Gap plugs will last the life of the engine.

Use Regular-Grade Automotive Gas — with Thunderbolt and Perma-Gap plugs, economical regular-grade gasoline is recommended.

"XX" Aluminum — a corrosion-resistant aluminum alloy that's 40% stronger than aluminum used in competitive outboards.

Add to these outstanding new features old Mercury standbys: Glide-Angle design, shearproof propeller drive; Jet-Prop exhaust, Shallow-water Slant; one-piece driveshaft and lower unit housings; Full Jeweled Power; fixed-jet carburetion; full silencing system; one-hand steering and throttle control; full forward-neutral-reverse gearshift, and you know we've got the Space Age fishing outboard.

Want to see one for real? Come on in, we've got 'em all on hand.

RED CROSS

IS ALWAYS THERE

WITH YOUR HELP

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular feature prepared by the Family Financial Counseling Service of the Avco Delta Corp., P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered in print or by mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

SSSS

Dear Mr. Martin:

I am going to get married soon and would like to know whether I'd be better off renting an apartment at first or buying a home right away. Can you help me?

Mr. E. B. H.

Dear Mr. E.B.H.

To most families, their home is their biggest single investment, so careful planning is house that quickly can leave

called for before you decide to purchase. Owning your own home and suiting it to your own personal tastes can be a great source of satisfaction, but there are also several good reasons for renting an apartment.

A basic consideration is commitment. Do you like to keep a home up and perform the many indoor and outdoor tasks that go with a home of your own or do you like the freedom from household chores that an apartment affords. Money is another major consideration. A modern apartment's rent may seem high, but add up all the costs of home ownership including upkeep, insurance taxes, and utility payments to make a good comparison.

Of course, if you plan to move in a year or so, the expense of buying and selling a house that quickly can leave

you with a financial loss. But if you are going to stay put, home ownership is one of the best investments you can make in most areas. With property values on a steady rise, the equity you build in a home can be a good hedge against today's inflation.

So you see, it's really up to you and the plans you have for the future and how you want to live, and how much money you have to spend.

Interest rates on new homes are high these days and aren't expected to drop in the near future, but if you have some cash on hand, you might be able to buy an existing home with a much lower interest rate and, therefore, lower monthly payments.

As I said before, buying a home is a big decision, and it shouldn't be left up to just one person. Consult with your bride-to-be and with both your families.

FISHIN' FACTS

BY BOB HAWTHORNE

BACKYARD CASTING

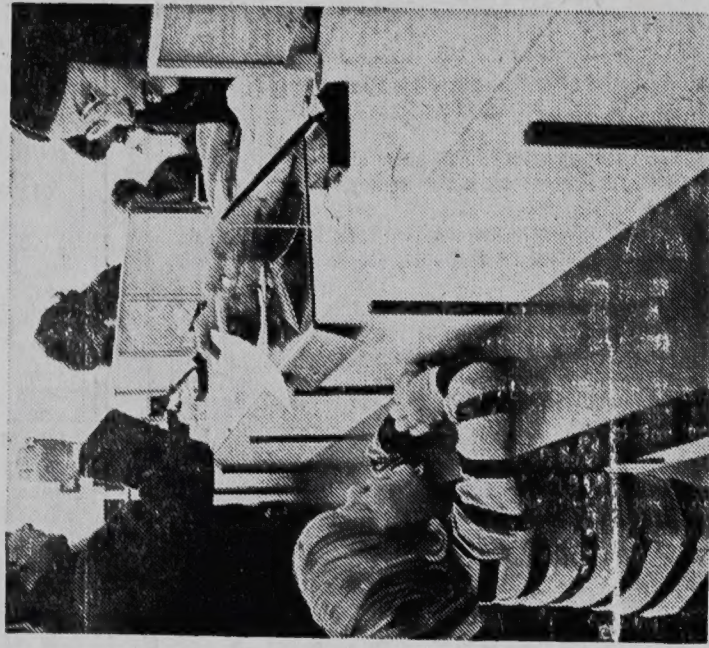

If you want to get more fun out of your next fishing trip, practise casting before you go. Practice makes perfect, and an accurate caster has a better chance for success. You can practise by yourself, with a group of friends, or join a regular casting club that usually conducts weekly casting sessions. Not only will it improve your fishing technique, but it is a lot of fun and is a sport in itself. Here's how!

Plywood discs, 30 inches in diameter, are placed at staggered distances. The target closest to the caster is 40 feet away, and the farthest target is placed at a distance of 80 feet. Ten targets are used in an official casting Tournament, and they are placed at unknown distances to the caster between 40 and 80 feet. A lesser number of targets may be used if desired. Floating aluminum rings are used when casting on water.

Each participant in turn takes one cast at each of the 10 targets. The method of scoring is the demerit system, whereby each caster starts out with 100 points and tries to keep them. If the plug lands on or in the target, or hits the rim of the target, he caster scores a zero or a perfect cast. For every foot or fraction of a foot he misses the target, the caster loses one demerit.

For example, if he missed the target by one foot, he would lose one demerit, whereas a miss of four feet would be four demerits. Maximum number of demerits for one cast is 10. After completing one cast at all 10 targets, the number of demerits made is totalled and subtracted from 100 to determine each caster's percentage or score. Ties are usually broken by a sudden death cast to determine the winner.

There are numerous casting games in fly, bait, and spinning, conducted throughout the country today at the competitive level. Practice plugs for these games are available at most sporting goods stores. The common weight plug used for spinning is one quarter ounce or three-eighths ounce, and five-eighths ounce is the most popular weight used in bait casting. Additional information on how to conduct a casting tournament can be obtained by writing to the American Casting Association, P.O. Box 51, Nashville, Tenn.

Ontario incomes have doubled in 12 years.

NONNIE GRIFFIN — CANADIAN SHORT STORIES

Canadian actress Nonnie Griffin is one of the readers on the popular CBC radio network series, Canadian Short Stories, heard Monday to Friday at 11:45 a.m.

OBITUARY

FLORA JANE HEWITT

On May 31, 1970 Minden and children, three sisters, Mrs. the surrounding district were Dora Welch of Minden, Mrs. shocked to learn of the sudden Gertrude Myles of Peterboro, passing of Flora Jane (Snell) of Mrs. F.H. Westran (Sally) of Hewitt at the Red Cross Hospital in Minden. Mrs. Hewitt had Niagara Falls, two brothers, been making satisfactory progress following a heart attack Garnet of Minden and James of Carbon Alberta. Three brothers pre-deceased her.

The Pall-bearers were Oswald Snell, Jack Snell, Reg Welch, Robert Herlihey, James Brasier and Don Campbell.

To the sorrowing family is extended the sincere sympathy of the community.

WEIGHT WATCHERS

SPECIAL

Strawberries, with only 54 calories per cup, are the ideal summer treat for weight watchers. In this recipe from MacDonald Institute, University of Guelph, the fresh berries give a great taste to cottage cheese.

Crush one cup of strawberries and sweeten to taste. Force one cup of cottage cheese through a sieve. Combine the berries and cottage cheese, beating until light and fluffy. Serve at once. Makes three servings.

per person in a twelve-month period
(excluding radiographic examinations)..... 100.00

ONTARIO DEPARTMENT OF HEALTH

Hon. Thomas L. Wells, Minister

NEW BUS SERVICE BETWEEN LINDSAY AND OSHAWA
NOW IN EFFECT BY ALGAR COACH LINES

The Ontario Highway Transport Board has granted a licence to Algar Coach Lines Limited to operate a daily scheduled bus service between Lindsay and Oshawa, it was announced recently by Mr. R.M. Algar, president of the company.

Algar Coach Lines Limited have many years experience in the public transportation field and have been providing regular bus service to areas north of Lindsay for almost forty years. Regular service is provided by this company between Lindsay

Minden, Haliburton and Huntsville, and between Lindsay and Bobcaygeon.

The new Lindsay to Oshawa service will provide ready access for the people in the Oshawa area to the resort areas of Victoria and Haliburton Counties and will allow residents of Lindsay, and the areas north of Lindsay, a convenient route to the shopping facilities available in the Oshawa area.

The Lindsay-Oshawa service will operate three return trips daily initially and additional service will be provided if there

is a public need for additional service. Service will commence later this week and copies of the schedules will appear in all local newspapers throughout the area served.

Mr. Algar pointed out that this new line results in Algar Coach Lines Limited providing regular passenger and parcel express service over almost 200 miles of routes in the area, south and north of Lindsay. In addition, the company has provided a Charter Coach service in the area for many years and also operates the Town Bus in Lindsay.

Algar Coach Lines Limited recently announced its expansion into the long distance luxury motorcoach tours field and will also be providing public transportation between Lindsay and the International Plowing Match to be held in the Lindsay area this Fall.

Only Mercury outboards can use regular-grade automotive gasoline and not become fouled

HOW COME?

Thunderbolt ignition and new Perma-Gap spark plugs ... that's how come! Thunderbolt's spark is so quick and so powerful (up to 40,000 volts) that lead deposits are literally blasted right off the spark plug. And the new super-tough alloy used in the center electrode of the Perma-Gap plug resists spark plug erosion. Under normal operating conditions, the Perma-Gap spark plug will last the lifetime of your engine. Now you can take advantage of the wide availability, uniform consistency and low cost of regular-grade automotive gasoline. But it takes Thunderbolt ignition AND Perma-Gap plugs to do it. Come on in and check out the new 1970 line of Mercury outboards... 4 to 135 hp.

**MINDEN MARINE
 PHONE 286-1011**

That's something your children can build on.

Ontario youngsters can look forward to the future with more confidence than almost anyone. They'll inherit an economic giant with a remarkable record of accomplishment. Few places in the world, for example, can equal our record for rising incomes. Our pay envelopes are twice what they were in 1957, yet prices have gone up just 33%.

Ontarians earn more, perhaps, because we produce more. Our Gross Provincial Product (the dollar value of all the goods and services

produced) has doubled in the last decade. By 1969 it had reached \$32.3 billion and projections show we could reach \$52 billion by 1975. Today we account for more than half of Canada's manufactured goods and 80% of Canada's fully manufactured exports. Nice work!

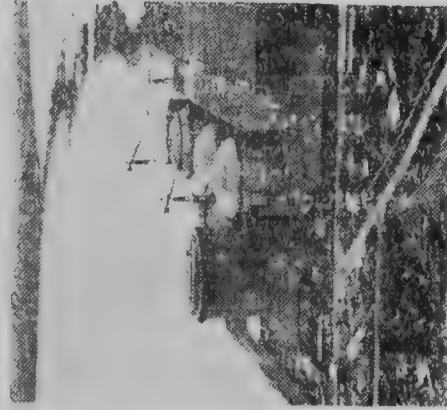

Because of the way we work, Ontario is in good shape to face the future. We have an economy our children, and their children can build on... an economy that can continue to provide the 100,000 new

jobs we need each year to accommodate our growing labour force. Though, our dollar and our economy face many challenges these days, Ontario has built the foundation to meet them. But, it's not our style to stand on our record. We must keep growing and keep building our economy.

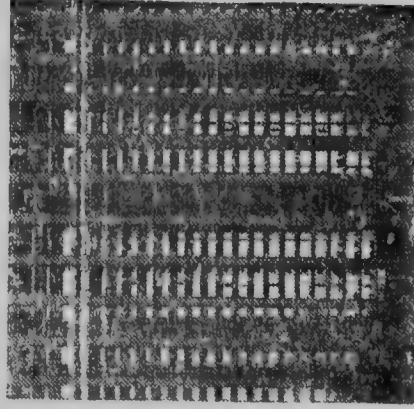

One way you can help—put your money where your job is—when price and quality compare, shop Canadian.

Ontario's educational system is growing to provide the skills and knowledge that are vital to a growing economy. The Province today has 16 universities with a student population that has doubled in the last four years. And we've created 20 community colleges in three years to give Ontarians the widest educational opportunities.

Our growing economy places growing demands on electrical power. Nuclear generating stations, like the one above under construction near Pickering, will help supply keep pace with demand. This station will be one of the largest in the world.

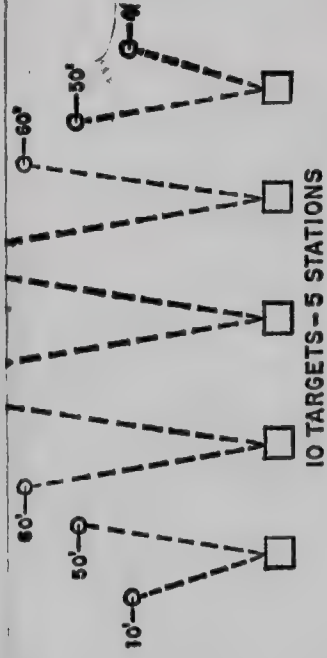

Wages aren't all that have been going up in Ontario. There's been a lot rising in steel and concrete to house our expanding population and industry. Last year over one third of all the money invested in construction in Canada was invested in Ontario.

Canada's life style of tomorrow presents many challenges. But it's Ontario's style to meet these challenges today.

On the last day of the Max Ferguson Show (during which Max received a telegram from Robert L. Stanfield and a phone call from John Diefenbaker, a longtime admirer) it was announced that the 46 year-old broadcaster had been awarded the Medal of Service by the government of Canada. A fitting recognition of 23 years of broadcasting on CBC radio, in which time the early morning satirist has become a national institution. But take heart, Ferguson fans, Max will be back in September, with two skits daily on the network.

Other recent award-winners are the Ivan Romanoff Chorus and Orchestra, who were invited to attend the Slovak World Congress in New York to accept an award for their contribution to the propagation of Slovak culture. Romanoff is taking a summer break away from his program, Continental Rhapsody, which for years has featured the music of many lands.

Every now and then, co-hosts Alan Millar and Harry Brown of CBC Metronome like to report firsthand on musical events of national importance, though they normally rely on a string of reporters across Canada to do this for them. From St. John's July 11, they'll report on the month long Festival of Arts being held in the new Arts and Cultural Centre, and on July 18 they'll talk about the new musical, Jane Eyre, being premiered at the Charlottetown Festival.

Manitoba figures largely in the program schedule this week; the province is in the midst of year-long centennial celebrations commemorating its entry into Confederation in 1870. CBC Stage, July 11, presents The Lady of the Plains by Winnipeg writer William Yankewitz, a drama about the Countess of Dufferin, the first steam locomotive brought to the prairies in 1877. It is followed on Anthology by Red River Voices, a prose poem by Christopher Dafoe, formerly with the Winnipeg Free Press.

On the eve of centenary celebrations, July 14, CBC Tuesday Night offers a mixed bag of Manitoba. The Ballad of Seven Oaks by Neil Harris is followed by Steve, a documentary on Winnipeg's major Stephen Juba. The last segment of the program is devoted to a word and song portrait of Pierre Falcon, Bard of the Metis.

Apartment House Fishing

Whenever a tree falls into a lake or stream, it becomes a giant, luxury apartment house.

The first occupants to move in are minnows and small fish seeking shade and shelter. Close behind will be crayfish, hellgrammites, caddis nymphs, frogs, worms and many other forms of aquatic life.

Red Fisher

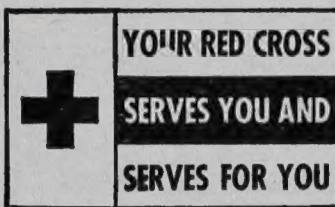

This abundance of natural food soon attracts some keeper-size fish and several of these will probably make the fallen tree their home.

Sharp-eyed anglers take advantage of logs and stumps in the water, says Red Fisher, the fishing authority at Mercury outboards, and their fishing success improves when they learn how to use these underwater housing developments for fish.

Largemouth bass like to lie under a log just where it enters the water and catch small frogs as they leave the water to sun themselves. A bass bug—or top water plug—cast so that it glances off the log will often tempt a bass into thinking it's his next meal.

The position of the sun makes a difference as to which side you should aim your cast. Most fish like the shade, therefore it's best to drop the first cast on the shady side of a log or stump.

During the hours when the sun is almost directly overhead, fish move into deeper water along the log. When this happens it's time to change to a spinning rig and work the deep water at the end of the log.

ABOUT THE TOWN

With Jeanne Sears

It was really amazing to learn that the store vacated by Griffith Corporation could be stocked and ready for customers in such a short time, just a week. The Stedman Company now has another excellent outlet and more stock is arriving every day. Those in charge during the past week included E. McCready President, J. E. Rugles Vice President and D. Hudson General Superintendent. This store will really suit the community's needs as when Ken Currie had it, his stock was from Stedmans as well.

* * * *

Another of our elder citizens celebrated her 90th birthday, Mrs. James Austen Sr., she enjoyed a visit with the James Austens Jr. and many of her children and their families called on her special day.
